thegoodeggco@btconnect.com

Dear customer / consumer.

With the difficulties in sourcing our retail egg boxes at this present time we have sourced a **temporary** egg retail pack.

Bare codes remain the same.

We are thinking environmentally, so have chosen a R-PET 100% recycled egg pack which is 100% recyclable

The Carbon Footprint, Water and Energy Consumption of these egg packs are lower than of any other material used for the production of egg packs.

We think environmentally.

Made from 100% recycled material and 100% recyclable.
